Make your life easier with Google Scholar Button

Google Scholar recently released a new browser plug-in (for Chrome, Firefox and Safari) that adds a Scholar button to your browser toolbar for easy access to Google Scholar from any web page.

How to install

- Go to Google Scholar page (https://scholar.google.com.pk/)
- Click Settings on the top right of the screen
- Click Button on the left bottom side of the screen
- Click Install Scholar Button to look up papers as you browse
- Click Add to Chrome (or another browser)
- The button will appear top right of your browser

How to use

Search abstracts by typing keywords in the search box. Select/Highlight the title of the paper and click the Scholar button to find full text on the web.
